## INTRODUCING IPB

The International Peace Bureau is a non-profit association founded in 1891, and as such it is the oldest international peace organization in the world. It is dedicated to the vision of a World Without War. Our network includes 300 member organisations in 70 countries. Our current main programme centres on Disarmament for Sustainable Development and we campaign mainly on the reduction of military expenditure.

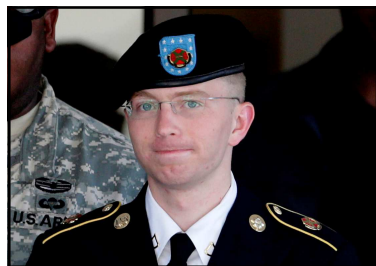

We depend on your support to continue working on this and a range of other topics, including nuclear and conventional disarmament, arms trade, peace education, culture of peace and peace history.

Please consider: Leaving us a legacy or making an endowment or a simple donation. In this way you can enable IPB to plan its work more effectively and thus help to "save succeeding generations from the scourge of war".
