As the US occupiers continue killing our innocent and sorrowed people without regret, this time they committed yet another horrible crime in Bala Baluk village of Farah Province. On 5th May 2009, the US airstrikes targeted people's homes, killing more than 150, mostly women and children. This is another war crime but Pentagon shamelessly includes Taliban as the perpetrators too and announces the civilian deaths being only 12!

The so-called 'new' strategy of Obama's administration and the surge of troops in Afghanistan have already dragged our ill-fated people in the danger zone and his 100-day old government proved itself as much more war-mongering than Bush and his only gifts to our people is hiking killings and ever-horrifying oppression. This administration is bombarding our country and tearing our women and children into pieces and from the other side, is lending a friendly hand towards the terrorist Gulbuddinis and Taliban -- the dirty, bloody enemies of our people-- and holding secret negotiations and talks with such brutal groups.

While our grieved people are burying the torn bodies of their loved ones in mass graves; the traitor lackey Said Tayeb Jawad, in his comfort in the USA, tries to dim the war crimes of his masters and about the killings of civilians, shamelessly salts people's wounds saying, "this is a price we have to pay if we want security and stability in Afghanistan, the region and the world."!

If his or other ignoble spies like him would lose their children and dear ones like the people of Bala Baluk, would they still become so stone-hearted and remain silent in the face of US/NATO war crimes in Afghanistan?

The only way our people can escape the occupant forces and their obedient servants is to rise against them under the slogans of: **"Neither the occupiers! Nor the bestial Taliban and the criminal Northern Alliance; long live a free and democratic Afghanistan!"**
