Research

Figures are in US \$b., at constant 2003 prices and exchange rates. Figures in italics are percentages.

Figures do not always add up to totals because of the conventions of rounding.

Note: Sub-regional totals are presented within brackets when based on country data accounting for less than 90% of the regional total. No data are presented when the estimate would be based on data accounting for less than 60% of the sub-regional total.

(a) For the country coverage of the regions, see [Regional coverage](#). CEE= Central and Eastern Europe. Some countries are excluded because of lack of data or of consistent time series data. Africa excludes Angola, Benin, Equatorial Guinea and Somalia; Asia excludes Afghanistan; and the Middle East excludes Iraq and Qatar. World totals exclude all these countries.
